

## **AISIN Introduces OES Transfer Case Bearing Kits and OES Engine Coolant Temperature Sensors**

*New products to be unveiled at AAPEX 2023*

**TORRANCE, Calif., October 31, 2023** – In an ongoing effort to expand its current product offering for the North American automotive aftermarket, AISIN – the global leader in the supply of OE-quality premium parts – is introducing its OES line of Transfer Case Bearing Kits and OES Engine Coolant Temperature Sensors. The new products will be officially unveiled at the 2023 AAPEX Show, held Oct. 31 – Nov. 2 in Las Vegas, according to Larrow Kaufman, senior sales manager, AISIN Aftermarket North America.

The launch of the OES Transfer Case Bearing Kits includes assemblies for Toyota 4-Runner, Tacoma, and Tundra, and come conveniently packaged in one box for professional technicians. The bearings included are manufactured by well-known OEMs.

AISIN has also announced four new OES Engine Coolant Temperature Sensors. Part numbers THSAZ-8001 thru THSAZ-8004 fit several late model vehicles, including but not limited to Lexus, Mazda, Subaru, and Toyota.

Specific application information for the bearing kits and temperature sensors can be obtained by contacting catalog providers or visiting [aisinaftermarket.com](http://aisinaftermarket.com).

**Transfer Case Bearing Kits**

**Engine Coolant Temperature Sensors**

“Our continued commitment to delivering top-tier aftermarket components is exemplified by this latest extension of our product line,” said Kaufman. “We look forward to sharing our news with customers and showing our products at **AISIN booth #A4657**, the same location of our exhibit last year.”
