

## **DMA at AAPEX 2023: See What's New at Booth A3461**

To mark their 15th-year anniversary, DMA is set to make waves at this year's AAPEX Show with their showstopping 20' X 40' booth located this year in the main hall!

This year, DMA is celebrating not only their anniversary but also a record sales year that has allowed them to take their new OE MasterSeries line to new heights of innovation. MasterSeries encompasses their new RideMaster line, featuring top-quality coil springs, air suspension components, control arms, and light chassis, as well as their new BrakeMaster line, which includes precision brake rotors and advanced brake wear sensors.

Join DMA at AAPEX 2023 for an exclusive look at these game-changing additions to their legacy product lineup.

SENSEN® Shocks & Struts

SPEEDY STRUT® Complete Strut Assemblies

RIDEMASTER™ Coil Springs, Air Shocks, Electronic Suspension, Control Arms & Small Chassis

BRAKEMASTER™ Brake Rotors & Brake Wear Sensors

BULLDOG HD™ Heavy Duty Shocks, Steering Dampeners & Cab Shocks

About attending AAPEX 2023 says John Treece, President & CEO – “We're thrilled to connect with our loyal customers who've been an integral part of our journey and equally excited to forge new relationships within the industry while presenting our new MasterSeries line and products.”
