

XTRA REV

PRODUCT CATALOG

IT'S ALL ABOUT PERFORMANCE.

PRODUCTS THAT MEET THE TOUGHEST INDUSTRY STANDARDS

Xtra Rev is a line of high performance and top quality lubricants distributed through a reputable network of marketers and retail outlets around the world. **Xtra Rev's** products are specially formulated with premium base oils and advanced additive technology to provide outstanding protection to on-road and off-road equipment applications in a wide range of operating conditions.

Every **Xtra Rev** product is certified to meet or exceed the latest specifications set forth by the Original Equipment Manufacturers (OEMs), the American Petroleum Institute (API), SAE, ILSAC, ACEA and other international agencies.

EXTENSIVE LINE OF TOP-QUALITY PRODUCTS

Xtra Rev's extensive line of products includes premium products for passenger cars, commercial vehicles, off-highway applications, marine, construction, manufacturing and agriculture equipment. Few other suppliers can match **Xtra Rev's** depth of product selection. Our products are packaged in a wide variety of sizes and styles including 2.6oz., 32oz. and 1 gallon bottles; 5 gallon pails, 55 gallon drums and 275 gallon totes. High quality products are also available in bulk, ISO containers and Flexibags.

ADVANCED TECHNOLOGY CREATES HIGH PERFORMANCE PRODUCTS

Multiple levels of stringent quality control testing are carried out in our ISO 9001 and A2LA Certified Laboratory to stay on the cutting edge of lubricant technology. Eight fully automated packaging lines with state-of-the-art inspection stations further ensure **Xtra Rev's** quality. These stations are equipped with infrared fluid level and cap seal verification, bar code scanners, and vision systems for label accuracy. We also constantly monitor the quality of our raw materials, safety standards, shipping processes and deadlines. All of this is done to maintain the highest levels of quality and customer satisfaction.

Gasoline Motor Oils

Xtra Rev FULL SYNTHETIC Motor Oils are modern oils for modern work - protecting all types gasoline engines, even those that are turbo or super-charged. Formulated with state-of-the-art additives and 100% synthetic base stocks, **Xtra Rev** is formulated to meet or exceed all new car manufacturers' warranty requirements as well as stringent industry standards such as API SP / ILSAC GF-6.

dexos® Full Synthetic Motor Oil

dexos1™ Gen 3 is a full synthetic lubricant that provides high quality engine protection. The dexos specification holds motor oils to the same stringent requirements as GM's most advanced engine technology. GM dexos1™ Gen 3 testing contains specific proprietary tests that are not included in current industry standards. Meaning, GM dexos1™ Gen 3 approved oils exceed the performance of today's conventional oil.

Available in: SAE 0W-20, 5W-20, 5W-30

- Protection against timing chain wear and Low Speed Pre-Ignition (LSPI), a potentially catastrophic phenomena that occurs in GDI (gasoline direct injection) engines
- Advanced protection against rust, corrosion, sludge, varnish, and wear
- Excellent control for long automaker recommended oil change intervals
- Meets or exceeds: GM dexos1™ Gen 3, ILSAC GF-6A, API SP, SN PLUS, SN, SM, SL

Full Synthetic Motor Oil

Available in: SAE 0W-20, 5W-20, 5W-30, 5W-40, 10W-30, 10W-40, 20W-50

- Protection against timing chain wear and Low Speed Pre-Ignition (LSPI), a potentially catastrophic phenomena that occurs in GDI (gasoline direct injection) engines
- Excellent control for long automaker recommended oil change intervals
- Improved fuel economy and thermal stability for smaller and hotter engines
- Exceeds toughest API SP, SN PLUS, SN, SM or SL and ILSAC GF-6A requirements

Full Synthetic European Motor Oils

Available in: SAE 0W-30, 0W-40, 5W-30, 5W-40

- Protects engines under all driving conditions
- Lowers friction and improves gas mileage
- Provides longer engine life
- Protects against rust, corrosion and varnish
- Resists thermal break-down
- Reduced ash content makes suitable for engines equipped with particle filters
- Meets the requirements of ACEA C2/C3, API SN/CF, Euro 6 and China 6 service categories

Xtra Rev SELECT BLEND OILS provide extra protection against the harmful effects of city driving, where cars undergo a higher stress due to constant stopping and going. Its low friction formula helps improve gas mileage for long engine life and helps protect against rust, corrosion, startup wear, varnish build-up, and eliminates the need for extra oil additives. Specially formulated to protect high compression gasoline direct injection engines from the occurrence of Low Speed Pre-Ignition (LSPI) and Timing Chain Wear. **Xtra Rev** is formulated to meet or exceed all new car manufacturers' warranty requirements as well as stringent industry standards such as API SP / ILSAC GF-6.

Synthetic Blend Motor Oil

Available in: SAE 5W-20, 5W-30, 10W-30, 10W-40, 20W-50

- Blended with premium base oils and a superior additive package ensuring proper lubrication and outstanding protection under all driving conditions
- Protection against timing chain wear and Low Speed Pre-Ignition (LSPI), a potentially catastrophic phenomena that occurs in GDI (gasoline direct injection) engines
- Excellent protection against rust, corrosion, sludge, varnish, and wear
- Lowers friction and improves gas mileage and engine life
- Meets API SP, SN PLUS, SN, SM, or SL and ILSAC GF-6A requirements

Diesel Engine Oils

Xtra Rev has an additive package designed specifically for CK-4 to help mixed-fleet owners enjoy simplified logistics and flexibility. **Xtra Friction Technology™** provides performance benefits in both on- and off-road applications and, with our new friction modifier, it can help enhance fuel economy benefits beyond reducing viscosity. Get all of these benefits without sacrificing the durability demanded in heavy-duty field applications.

Synthetic Blend Oil

Specially formulated with the highest quality synthetic and premium base oils to provide higher performance versus conventional oils, while prolonging today's high performance engines' life.

Available in: SAE 10W-30, 15W-40

- Performs well in low emission diesel engines which increase the demands on engine lubricants
- Delivers the best performance in late model engines, as well as older engines
- Excellent soot handling capabilities
- Exemplary thermal stability and oxidation control
- Contains properties which provide anti-wear and anti-scuff
- Contains extended TBN reserves which provide improved acid neutralization and corrosion protection
- Maximizes oil flow to the critical bearing surfaces during start up
- Has stay-in-grade shear stability, extended drain capabilities and excellent water tolerance
- Exceed toughest US standards for gasoline engines requiring API CK-4, CJ-4, CI-4 PLUS, CI-4, CH-4, SP, SN PLUS, SN, SM, and SL

Extended Diesel Life Multigrade

Xtra high performance diesel engine oil that provides excellent lubrication of today's diesel engines promoting extended engine life. This Xtra high performance has been proven in the field in a wide variety of industries, applications, and mixed fleets. It exceeds requirements of API CI-4 PLUS for enhanced engine protection.

Available in: SAE 10W-40, 15W-40 , 20W-50

- Excellent soot handling capabilities
- Maximizes oil flow to the critical bearing surfaces during start-up
- Contains properties which provide anti-wear and anti-scuff
- Extended drain capabilities—excellent water tolerance
- Exemplary thermal stability and oxidation control

Fleet

Fleet vehicles don't get days off. They have to perform day after day, in heavy traffic, bad weather and with frequent starts and stops. Fleet vehicles require special formulations to meet the demands these vehicles endure. **Xtra Rev** Fleet Motor Oils were created specifically for these road warriors. Their low friction formula boosts gas mileage, extend engine life, reduce start-up wear, and protect against thermal breakdown. Helping fleet vehicles get the job done.

Multi Grade Fleet Motor Oil

Formulated with superior base oils and advanced additive technology to combat sludge build-up and component wear, maintaining advanced levels of engine protection and cleanliness.

Available in: SAE 10W-40, 15W-40, 20W-50, 25W-50, 25W-60

- Suitable for on-road and off-highway applications
- Superior soot control, thermal break-down resistance, and corrosion protection
- Outstanding protection over long-drain intervals
- Lowers friction and improves gas mileage
- API CH-4

Mono Grade Fleet Motor Oil

Blended with high quality base oils and formulated with superior additive packages to exceed the toughest U.S. standards for today's high performance engines.

Available in: SAE 10, 30, 40, 50

- Exceptional protection against rust, corrosion, and startup wear and varnish build-up
- Suitable for light and heavy duty trucking, and construction, quarrying and agriculture applications
- Low friction formula helps improve gas mileage and protect critical components in both on and off highway applications
- API CH-4

Transmission Fluids

Xtra Rev Transmission fluids give you superior slippage reduction, for faster, firmer shifts, so you feel your vehicle's total performance. Plus, our transmission fluids help your transmission keep its cool, even when you push your vehicle to its limits.

Available in: 32oz., 1 Gallon, 5 Gallon, 55 Gallon Drum, 275 Gallon tote

Full Synthetic Global ATF

- Advanced 100% synthetic technology with superior additives
- Exceptional oxidation, wear, frictional stability, sludge and deposit prevention, and anti-shudder properties required in today's high performance transmissions
- Designed for automatic transmissions of all North American, European, and Asia-Pacific made vehicles
- Suitable for Chrysler vehicles where ATF+4® and ATF+3® are required

Full Synthetic CVT Fluid

- Engineered with 100% synthetic technology to provide superior protection to today's sophisticated continuously variable transmissions
- Designed to provide anti-shudder performance for smooth transfer of power
- Superior performance compared to the most common North American CVT Fluids being supplied by leading OEMs

Multi-Purpose ATF (DEXRON® / MERCON®)

- Outstanding friction stability and low-temperature fluidity for smooth transmission performance
- Meets Allison Transmission Division (C-4) and major hydraulic pump manufacturers' standards
- Suitable for automatic transmission units that require General Motor's DEXRON® III-H and Ford's MERCON®

Full Synthetic DEXRON® VI ATF

- Formulated with 100% synthetic technology and superior additive formulation
- Outstanding resistance against sludge, deposit formation and thermal breakdown
- Meets or exceeds the stringent requirements of General Motors' DEXRON® VI specification
- General Motors License Number J-60204

SynGuard 50 Full Synthetic Transmission Oil

- Designed for high-torque heavy-duty power shift transmissions
- Excellent friction performance and smooth brake operation
- Outstanding protection against oxidation, wear and corrosion
- Superior formulation for extended drain intervals

Hydraulic Oils

High pressures and elevated temperatures in pumps and valves can increase metal-to-metal contact and lead to accelerated wear unless they are protected by superior quality anti-wear hydraulic oils. **Xtra Rev** hydraulic oils are formulated to allow hydraulic systems to perform at their peak, while protecting against corrosion, oxidation, wear and leaks. They are particularly suited to high performance industrial applications where hydraulic pressures increase over 1000 psi.

Available in: 5 gallon pail, 55 gallon drum and 275 gallon tote

Tractor Hydraulic Fluids

Xtra Rev Tractor Hydraulic Fluids are formulated with the highest quality base oils and an advanced additive system to provide superior protection to all type of farm equipment and tractors.

- Outstanding protection against metal wear, scuffing, oxidation, corrosion and foam build-up
- Excellent performance on heavy-duty power shift transmissions
- Premium lubrication of transmissions, final drives, brakes and power steering units
- Meets performance requirements of manufacturers such as: John Deere, Massey Ferguson, Case, Volvo, International Harvester, Caterpillar, Kubota, Ford New Holland and more

XL-6000 and XL-3000 AW Hydraulic Oils

XL-6000 available in: ISO Grade 32, 46, 68, 100, 150

XL-3000 available in: ISO Grade 32, 46, 68, 100, 150

- Premium quality anti-wear hydraulic fluid formulated with highly refined, high viscosity index base stocks
- Excellent thermal and demulsibility properties, and superior rust protection
- Outstanding protection to hydraulic systems that have vane, piston or gear type pumps and particularly where pressures exceed 1000 psi

Industrial Lubricants

There's a reason the term "Industrial Strength" exists, and it's because industrial equipment gets worked harder, under more extreme conditions than normal machines. Our **Xtra Rev** Industrial Oils are just as tough as the equipment they protect. With their superior stability, high viscosity and resistance to foaming, they give excellent protection from wear and cut maintenance costs.

Metal Working Oils

Available in: ISO Grade 32, 46, 68, 100

- General purpose oil, suitable for use where service requirements are normal to moderate and long-term, heavy-duty protection is not critical
- Superior anti-foam, rust and corrosion protection
- Recommended for use in hydraulic systems utilizing radial or axial piston, vane, gear and other type pumps

Gear Lubricants

Xtra Rev automotive gear oils are specially formulated to withstand the super high pressures of ring and pinion sets, transmissions and final drives, protecting against scuffing, scoring and rust, even in the worst conditions. They offer smooth running gear operation under various temperature conditions, as well as provide protection against wear and corrosion.

GL-5 SynGuard - Full Synthetic Gear Oil

Advanced 100% synthetic technology provides long lasting lubrication to transmissions and final drives. They meet the toughest industry specifications for automotive extreme pressure (EP) gear lubricants including limited slip differentials. They are designed for extreme pressure offset spiral bevel and hypoid gear sets (ring and pinion gears) in heavy-duty trucks, farm, logging and construction machinery.

Available in: SAE 75W-90, 75W-140, 80W-140

- Excellent resistance to wear, foaming and oxidation
- Extended drain intervals versus conventional products
- Ease of startup even in arctic conditions
- Meets API GL-5 and MT-1 requirements

GL-5 High Performance Gear Oil

Premium multi-purpose gear lubricant formulated with high quality base oils and a select extreme pressure additive system to provide anti-weld, anti-scuff and anti-wear properties that are necessary in heavy-duty service gear lubricants. They are designed to be used in limited slip differentials.

Available in: SAE 80W-90, 85W-140

- Excellent protection under the most severe conditions encountered in commercial transmissions, axles and final drives
- Excellent for use in heavy equipment applications that place higher performance demands on the drive train lubricants
- Protect against low speed high torque wear
- Excellent fluidity in low temperatures which reduces wear during start up
- Meets API GL-5 and MT-1 requirements

Torque Fluids

Available in: ISO Grade 10, 30, 50

- Recommended for use in construction, quarrying, and mining equipment operating under severe conditions
- Designed to meet the Caterpillar TO-4 or the Allison C-4 specifications
- Specifically designed for use in transmissions and drive trains
- Frictional controls stop slippage and assure silent and efficient action
- Resists oxidation at elevated operating temperatures

2 Stroke Engine

Xtra Rev Small engine oils are formulated to maximize performance in strenuous environments. These oils provide protection under a wide range of operating conditions.

TC-W3[®] 2-Cycle Engine Oil

Superior quality ashless 2-cycle lubricant, formulated with premium base oils and modern ashless detergent additive package to maximize performance and to protect outboard engines including high horsepower units.

Available in: 16oz., 32oz., 1 Gallon, 5 Gallon Pail, 55 Gallon drum, 275 Gallon Tote

- Pre-diluted for ease of mixing and may be used in injection systems
- Meets NMMA TC-W3[®] performance requirements
- Excellent performance in 2-cycle engines of motorcycles, chain saws, lawn mowers and snowmobiles
- Registration Number RL-93051R

2-Cycle Engine Oil

2-Cycle Engine Oil is specifically designed for use in newer high performance air-cooled engines, but can be used in any air-cooled engine where low ash oils are recommended.

Available in: 2.6oz., 6.4oz., 12.8oz., 16oz., 32oz., 1 Gallon

- Excellent engine protection in both variable ratio injection systems and fuel/oil pre-mix applications. It is pre-diluted to provide easy mixing
- Formulated to ensure fluidity and miscibility at low temperatures
- Outstanding anti-scuff, anti-wear, rust and corrosion protection
- Fully compatible with low octane, oxygenated/gasohol fuels
- Burns cleanly and helps keep port clear for maximum output. It also protects ball and needle bearings during high RPM use

Motorcycle

Full Synthetic 4-Cycle Motorcycle Oil

It is a 100% synthetic lubricant for 4-cycle motorcycle engines formulated with high viscosity index base oils and premium additives.

Available in: SAE 10W-40, 15W-50, 20W-50

- Excellent protection against wear and deposit formation for longer drain intervals, minimizing maintenance cost and prolonging engine life
- Multi-grade formula allows easier cold starts while maintaining high temperature film strength
- Excellent protection for transmissions and wet clutches
- Meets JASO MA2 and API SN requirements

Premium 4-Cycle Motorcycle Oil

It contains a new and improved formulation that meets and exceeds API's highest standards for gasoline engine lubricants with a service requirement of SL. This blend is specifically formulated for use in a variety of 4-cycle engines such as lawn mowers, garden equipment, small tractors, power generators, power tools, all terrain vehicles, snowmobiles, motorcycles and water pumps.

Available in: SAE 5W-30, 20W-50, 10W-40, 25W-50

- Superior additives keep engines cool, clean running and free from build up of rust, corrosion, sludge and varnish
- Excellent protection against wear and deposit formation for longer drain intervals, minimizing maintenance cost and prolonging engine life
- Specially selected base oils for a quick cold start, plus optimal protection and lubrication under severe conditions
- Meets JASO MA1 / MA2 requirements
